Australian Equities

This chart illustrates the spread of your listed Australian Equities holdings against the various sectors that make up the S&P/ASX 200.

The chart may show you are overweight, underweight or have no exposure to various sectors of the market. This is not unusual for private investors.

However, where your exposure to the market varies significantly from the S&P/ASX 200 it may indicate that the portfolio carries undue risk. This will depend on your investment aims and objectives. We recommend you discuss your portfolio weightings with your adviser.

The S&P/ASX 200 ("Index") is a product of S&P Dow Jones Indices LLC and/or its affiliates. Important Notices

JBWere uses its best endeavours to ensure information contained in this document accurately reflects the status of the account(s) as at time of compilation and that any estimates, opinions, conclusions, or recommendations contained in this document are reasonably held or made as at the time of compilation. However, no warranty is made as to the accuracy or reliability of any information contained in this document and, to the maximum extent permitted by law, JBWere disclaims all liability and responsibility for any direct or indirect loss or damage suffered by any recipient through relying on anything contained in or omitted from this document. This document is for the intended recipient only and is provided on the condition that you keep it confidential and do not copy or circulate it in whole or in part to any other person without the permission of JBWere.

At JBWere, we work hard to provide exceptional service. On an occasion where our service does not meet your expectations, we are here to listen, learn and work with you to make sure you receive the necessary support.

If you have a complaint, including any complaint about:

- the operation of the JBWere Multi-Asset Platform.
- accessible financial products held through the JBWere Multi-Asset Platform; or
- financial product advice provided to you in relation to the JBWere Multi-Asset Platform,

we encourage you to discuss the matter with your JBWere Adviser.

If you wish to register a complaint, please contact the JBWere Regulatory Compliance Manager at the address below:

Manager, Regulatory Compliance
JBWere Limited
GPO Box 4370
Melbourne VIC 3001

When dealing with a complaint you have submitted to us in writing:

- we will provide acknowledgement of our receipt of your complaint in the first instance; and
- we will investigate your matter if it is not resolved to your satisfaction within 5 business days and provide you with a written response within 30 days.

If you are not satisfied with our handling of your complaint, you may have the right to take your complaint to the Australian Financial Complaints Authority (AFCA), an independent complaints resolution body.

JBWere Limited is part of the National Australia Bank group of companies and the issuer of the JBWere Multi-Asset Platform. Your investment in the JBWere Multi-Asset Platform does not represent a deposit with or a liability of JBWere, NAB or any other member of the NAB group of companies.

Your investments can be subject to investment risk, including possible delays in repayment and loss of income and principal invested. None of the NAB group companies nor any other party guarantees the capital value, payment of income, the performance of the JBWere Multi-Asset Platform or investments acquired through it.

***Market value/Ending market value:** The Market value/Ending Market value of listed securities reflects the closing price of those securities on the relevant exchange as at the closing date of the relevant statement. Brokerage charges have not been deducted from the prices of listed securities shown. If you exceed your number of domestic free trades in the financial year, as per your MAP agreement brokerage will be charged at the rate applicable to you. Valuation of managed funds is based on unit prices available as at the closing date of the relevant statement (or otherwise those most recently available to us on the fourth business day following the end of the relevant statement). The information provided in relation to other assets including unlisted investments can vary depending on the type of investment. It may be based on the cost of the investment, latest estimate, or other method we determine and will not always be a valuation as at the reporting date. Some of these unlisted investments are not liquid and the value provided is not necessarily an exit value. Valuations of unlisted investments may be based on information provided by third parties. You should contact your JBWere Adviser before acting on the basis of the valuation of any investment described.

Valuation of alternative investments governed by JBWere's Additional Services Agreement ("Alts ASA"): Valuation of Alternative Investments governed by JBWere's Alts ASA are prepared based on the unit price, a Net Asset Valuation (NAV) provided by the Fund Manager, or an 'estimated' NAV calculated by JBWere. An 'estimated' value equals the latest issued Net Asset Valuation from the Fund, adjusted for subsequent cashflows. A cash flow may be, but is not limited to, a capital call or distribution by the Fund Manager. An estimation may be used by JBWere for valuation purposes at the time of quarterly and/or annual report delivery, and before fund managers have released their updated NAV. This is because some Fund Managers may only release valuations on a quarterly basis, usually provided within 4-12 weeks of the quarter end. Further, year-end valuations may take up to 90-days after year-end. Within JBWere systems, commitments to Alternative Investments governed by the Alts ASA are unitised and separated into 'paid' and 'unpaid' securities. The outstanding capital commitment is represented by the 'unpaid' security. The capital contributed is represented by the 'paid' security. Each unit represents a dollar committed to the fund, in the relevant currency denomination of that fund. The total commitment to each Fund will equal the sum of 'paid' and 'unpaid' units. JBWere gives no assurance of liquidity or redemptions for any alternative assets.

Portfolio Valuation

JBWere Limited
ACN 137 978 360

****Estimated Income:** JBWere uses its best endeavours to provide estimated projected income. JBWere utilises data available from a combination of third-party specialist data vendors, internal asset class projections for Managed Funds and Alternative Investments, and historic actual income for ETFs. It is noted that historical performance is not an indicator of future performance, and no warranty or guarantee is provided as to the accuracy of Estimated Income figures.

Managed funds: If you have made an application to either purchase or redeem a managed fund investment in the week prior to the end of the reporting period, these may not necessarily be reflected in your statements, (if, for instance, we have not received a confirmation of the redemption or purchase from the relevant product issuers). This information will be contained in future reports.

***Cost per unit

***Cost reflects the information currently available on the average underlying purchase value of the holding

Actual cost base details supplied: Where you have provided to JBWere the actual cost base details for an asset, we have not verified the accuracy of this information. Actual cost base details provided to JBWere may need to be reviewed and adjusted taking into account distribution information received from your previous service provider following financial year end. Please notify your JBWere Adviser if you believe the actual cost base details you have provided may be inaccurate or require adjustments due to updated end of financial year information. Your report will need to be reassessed taking into account such information.

Actual cost details not supplied: Please note that where the Actual Cost details for a capital gains tax asset have not been supplied, the report may not correctly reflect the portfolio's financial position. Reports such as the Realised report, the Unrealised report and the Portfolio valuation will need to be reassessed to account for the missing cost information.

†† Valuations for fixed interest securities: These will vary depending on the type of investment and can be based on the cost of the investment, last reported market price or latest available estimates. Valuations of Fixed Interest Securities may be based on information provided by third parties. For Exchange Traded Fixed Interest Securities, the estimated yield shown is either the yield to maturity or yield to next re-set date. For Over-The-Counter Fixed Interest Securities, the estimated yield shown is either the yield to reset or yield to call. All yield information on Fixed Interest Securities may be provided by third parties.
